READ ALL DIRECTIONS BEFORE STARTING WORK

Application:

1. Apply Concrete & Asphalt Cleaner with a brush or rag to the soiled areas and allow to stand for 1 to 2 minutes.
2. Scrub the area thoroughly and flush immediately with clean water until water runs clear without bubbling.
3. Deep oil and grease stains may require multiple applications.
4. Do not allow cleaner to stand on a blacktop surface for a prolonged period of time, as it will soften the asphalt.

NOTE: Proper application and installation of all Sakrete products are the responsibility of the end user.
