Mixing:
1. Thoroughly blend the color with water prior to adding dry material.
2. Caution: Care must be taken to keep proportions of materials the same from batch to batch. Color will tend to even out over time.
3. Use 1 package of Sakrete Color per 80 lb (36.3 kg) or 60 lb (27.2 kg) bag of Sakrete Concrete, Sand Mix or Mortar Mix.
4. One package of Cement Color will yield a darker color in a 60 lb bag than in an 80 lb bag. If a lighter color is desired use less cement color.
5. For custom field mixes, use up to 7 packages per 94 lb bag of Portland cement and up to 5 packages per 70 lb bag of masonry cement.
